

A lush garden pond with a waterfall, water lilies, and various plants. The pond is surrounded by green foliage, including irises and water lilies. The water is clear and reflects the surrounding greenery. The waterfall is on the left side of the pond, and the water lilies are on the right side. The overall scene is a beautiful and serene garden setting.

Beaver Plants Ltd

Catalogue 2024

## OUR COMPANY

- We are a family run British company
- Trading for over 50 years
- Operating from 2 nurseries on a 65 acre site in Surrey
- We are the largest grower of cold water aquatic plants in the UK

# 1L MARGINALS

Marginal plants grow in shallow water around the edge of a pond or river (zones 2 & 3).

Pondside plants thrive in damp soil and should not be submerged (zone 1).

Marginals & Pondside plants should form half of your display, with Marginal plants sitting in no more than 5cm of water.

1L in outers of 10

**Acorus calamus**

**Zantedeschia 'Aethiopica'**  
Arum lily Zone 1/2

# 8L PLANTED CONTOUR

Our 8L Planted Contour Baskets offer very good value for the customer and can be placed straight in to the pond. The Standard mixed and Oxygenators are the most popular and will be available all year. Consider stocking a small range of 5L marginals for customers that want a larger establish plant.

8L Single Planted Contour

8L Mixed Marginal Contour

8L Oxygenating Contour

# OTHER POTTED PLANTS

Our new floating islands come complete and offer the retailer an ideal impulse sale.

Our larger specimen plants are available in 5 & 10L Aqua baskets and provide a great statement to the larger display. These plants are truly finished products and are therefore suited to larger ponds.

Whilst stocks are held at our nursery we are also able to grow these to order, subject to a 3-4 week lead time.

2L Floating Island

**Scirpus 'Albascens'**  
Striped bull rush Zone 2/3

**Scirpus 'Zebrinus'**  
Zebra rush Zon

**Thalia dealbata**  
Alligator flag Zone

 **Veronica beccabunga**  
Brooklime Zone 1/2

**Typha laxmanii**  
Golden h. reedmace Zone

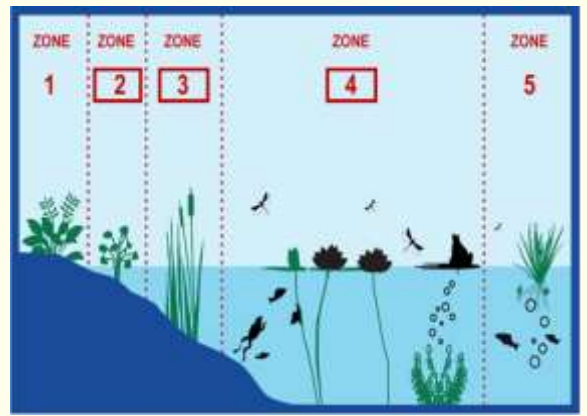

**Zantedeschia 'Aethiopica'**  
Arum lily Zone 1/2

# OXYGENATORS

Oxygenating plants are vital for every pond and should comprise around 25% of your display. Potted oxygenators do not need to be submerged in your display. 5cm of water is sufficient.

Our gardeners choice collection comes complete with a large colourful label.

We strongly encourage retailers to promote the sales of potted oxygenators, however, we will be continuing the sale of bunched oxygenators, subject to availability

1L outers of 10 | Gardeners Choice outers of 3

**Anagallis tenella**  
Pink bog pimpernel Zone 2/3

**Callitriche**

Var. pennywort Zone 2/3

**Myriophyllum brasiliensis**  
Zone 2/3

**Myriophyllum crispatum**  
Water milfoil Zone 2/3

**Myriophyllum propium**  
Water milfoil Zone 2/3

**Pilularia globulifera**  
Pepper grass Zone 2/3

**Ranunculus aquatilis**  
Water crowfoot Zone 2/3

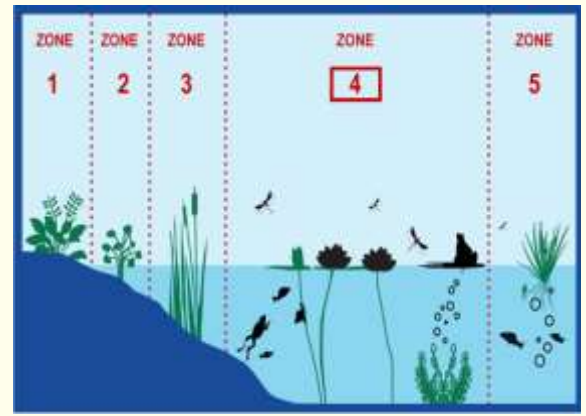

**Scirpus cernuus**  
Cotton bud grass Zone 2/3

# DEEP WATER

Historically these plants have been known as 'poor mans lilies' owing to there liking of the same conditions as waterlilies and their cheaper price point. We strongly recommend the stocking of these products along side lilies, particularly in the early season.

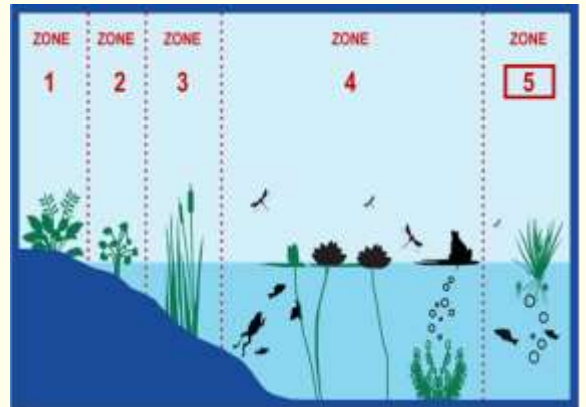

1L in outers of 3 | 2L in outers of 1

# FLOATING PLANTS

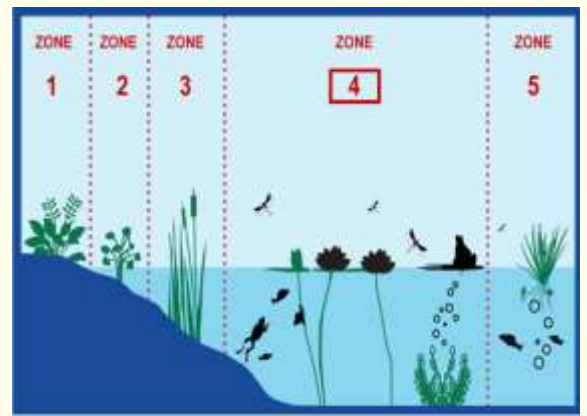

These ever-popular plants provide valuable shade and cover for all aquatic life. These should be stocked throughout the season.

Loose in outers of 25 | Tubbed in outers of 8/10

# WATERLILIES

Our waterlilies are available by colour or named. We offer over 20 varieties of named waterlilies and offer a suitable product to the more discerning water gardener. All lilies are suitable for medium to large ponds.

**Nymphaea Alba**  
White Waterlily

The only native waterlily

**Nymphaea Albatross**  
White Waterlily

**Nymphaea Albida**  
White Waterlily

## GARDEN PLANTS RANGE

We also grow a large range of Banana plants, Cannas, Ferns, Grasses, Hostas, Perennials, and more.

## GROWING BUSINESS

We are continuously expanding our nursery to meet our growing sales. In 2022 we completed our new raining water harvesting system complete with 600,000 L tanks and last year completed our new 20,000 square metre polytunnel.

## QUESTIONS & ANSWERS

**Q. I have never dealt with you, what should I do?**

**A.** Contact our sales team by phone, email or via our website.

**Q. How can I place an order?**

**A.** We update our order/ availability list each week and can send it to you automatically via email or download it from our website. Alternatively contact our sales team.

**Q. When will I receive my delivery?**

**A.** Orders placed by noon Monday are delivered same week to UK mainland.

**Q. I need help placing my order?**

**A.** Our experienced sales team can guide you through the order process.

**Q. How much is delivery?**

**A.** Delivery is free for full cc trolley orders. If the order is smaller than this we will make it up to a full trolley or there will be a delivery charge.

**Q. Can I order Aquatic Plants & Garden Plants together?**

**A.** Yes, you can make your order from any of our products.

**Q. Are your labels recyclable?**

**A.** From 2019 all of our newly printed labels have been recyclable.

## AVAILABILITY LIST

We update the availability/ order form each week. Join our mailing list to receive them automatically or download them from our website.

To make ordering as easy as possible and ensure you stock the best selling plants our availability list contains detailed plant information including common name, description, quality and whether in bud or flower.
